## Review report by the independent auditor to the Board of Directors of Bahrain Family Leisure Company B.S.C.

### Introduction

We have reviewed the accompanying condensed interim statement of financial position of Bahrain Family Leisure Company B.S.C. ("the Company") as at 30 June 2019, the condensed interim statement of profit or loss and other comprehensive income, the condensed interim statement of changes in shareholders' equity, the condensed interim statement of cash flows for the quarter and six months period then ended, and selected explanatory notes. The management of the Company is responsible for the preparation and fair presentation of these condensed interim financial statements in accordance with International Accounting Standard 34 - "*Interim Financial Reporting*". Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

### Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*." A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information does not present fairly, in all material respects, the financial position of the Company as at 30 June 2019, and of its financial performance and its cash flows for the quarter and six months period then ended in accordance with International Accounting Standard 34 - "*Interim Financial Reporting*".

## 2 Basis of preparation

The condensed interim financial information has been presented in accordance with International Accounting Standard 34 - "Interim Financial Reporting". The condensed interim financial information should therefore be read in conjunction with the annual audited financial statements of the Company for the year ended 31 December 2018. The financial information has been presented in Bahraini Dinar (BD) which is also the functional currency of the Company.

The condensed interim financial information have been prepared using going concern assumption under the historical cost convention, except for the valuation of financial assets at fair value through profit or loss which are carried at their fair values.

2 Basis of preparation (continued)

Improvements/amendments to IFRS 2015/2017 and 2016/2018 cycles

Improvements/amendments to IFRS issued in 2015/2017 and 2015/2018 cycles contained numerous amendments to IFRS that the IASB considers non-urgent but necessary. 'Improvements to IFRS' comprise amendments that result in accounting changes to presentation, recognition or measurement purposes, as well as terminology or editorial amendments related to a variety of individual IFRS standards. The amendments are effective for the Company's annual audited financial statements beginning on or after 1 January 2019 and subsequent periods with earlier adoption permitted. No material changes to accounting policies are expected as a result of these amendments.

Standards, amendments and interpretations effective and adopted in 2019

The following new standard, amendment to existing standard or interpretation to published standard is mandatory for the first time for the financial year beginning 1 January 2019 and has been adopted in the preparation of the condensed interim financial information:

| <u>Standard or interpretation</u> | <u>Title</u> | <u>Effective for annual periods beginning on or after</u> |
|-----------------------------------|--------------|---|
| IFRS 16                           | Leases       | 1 January 2019  |

IFRS 16 supersedes IAS 17 Leases. As a result of adoption of IFRS 16 the Company will recognise right of use assets and lease liabilities for all contracts that are, or contain, a lease. The Company has implemented IFRS 16 and has recognised right of use of assets and leases on balance sheet as at 1 January 2019. In addition, it is also decided to measure right-of-use assets by reference to the measurement of the lease liability on that date.

In accordance with the transition provisions of IFRS 16, instead of recognising an operating expense for its operating lease arrangements, the Company will recognise finance cost on its lease liabilities and amortisation on its right-of-use assets. This will increase reported EBITDA by the amount of its operating lease cost.

The Company has applied IFRS 16 using the modified retrospective approach and therefore the comparative information has not been restated. As a result of the adoption of this standard, BD1,038,897 was recognised as right of use assets and BD1,000,732 was recognised as lease liabilities resulting in reduction in the prepayment by BD38,165.

Standards, amendments and interpretations issued but not yet effective in 2019

The following new/amended accounting standards and interpretations have been issued, but are not mandatory for financial period ended 30 June 2019. They have not been adopted in preparing the financial statements for the period ended 30 June 2019 and will or may have an effect on the entity's future financial statements. In all cases, the entity intends to apply these standards from application date as indicated in the table below:

| <u>Standard or Interpretation</u> | <u>Title</u>        | <u>Effective for annual periods beginning on or after</u> |
|-----------------------------------|---------------------|---|
| IFRS 17                           | Insurance contracts | 1 January 2021  |

There would have been no change in the operational results of the Company for the period ended 30 June 2019 had the Company early adopted any of the above standards applicable to the Company.

Early adoption of amendments or standards in 2019

The Company did not early-adopt any new or amended standards in 2019.

### 3 Significant accounting policies and critical accounting judgments, estimates and assumptions

The accounting policies used in the preparation of the condensed interim financial information are consistent with those used in the annual audited financial statements of the Company prepared as at, and for the year ended 31 December 2018, as described in those annual audited financial statements except for those changed due to adoption of IFRS 16.

#### Right of use assets

As explained above in Note 2, the Company has implemented IFRS 16 from 1 January 2019 and therefore the Company has recognised a right-of-use assets and lease liability in the financial statements. In accordance with the transition provisions of IFRS 16, Instead of recognising an operating expense for its operating lease arrangements, the Company will recognise finance cost on its lease liabilities and amortisation on its right-of-use assets.

The Company recognises a right of use asset and a lease liability at the lease commencement date. The right of use of asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received.

The right of use asset is subsequently amortised using the straight line method from the commencement date to the earlier of the end of the useful life of the right use asset or the end of the lease term. The estimated useful lives of right of use assets are determined on the same basis as those of property, plant and equipment. In addition, the right of use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

Amortisation is calculated on a straight line basis over the estimated useful lives of the right of use assets is as follows:

|                     |              |
|---------------------|--------------|
| Building            | 8 years      |
| Outlets/Restaurants | 1 to 5 years |

#### Lease liability

The lease is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

3 Significant accounting policies and critical accounting judgments, estimates and assumptions  
(continued)

Lease liability (continued)

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right of use asset, or is recorded in profit or loss if the carrying amount of the right of use asset has been reduced to zero.

The Company presents right of use assets that do not meet the definition of investment property in property, plant and equipment and lease liabilities in loans and borrowings in the statement of financial position.

Preparation of the condensed interim financial information in accordance with IFRS requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The determination of estimates requires judgments which are based on historical experience, current and expected economic conditions, and all other available information. Actual results could differ from those estimates.

The most significant area requiring the use of management estimates and assumptions in the condensed interim financial information relate to economic useful life of right of use assets.

Economic useful life of right of use assets

Right of use assets are amortised over their useful lives. Useful lives are based on the management's estimates of the period that the assets will generate revenue, which are periodically reviewed for continued appropriateness. Changes to estimates can result in significant variations in the carrying value and amounts charged to the statement of condensed interim financial information in specific periods.

The Company's right of use assets are amortised on a straight-line basis from the commencement date to the earlier of the end of the useful life of the right of use asset or the end of the lease term.

Economic useful lives of right of use assets are reviewed by management periodically. The review is based on the current condition of the assets and the estimated period during which they will continue to bring economic benefit to the Company.

12 Transactions and balances with related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties include the shareholders, directors, key management personnel and their close family members and such other companies over which the Company or its shareholders, directors, key management personnel and their close family members can exercise significant influence or can be significantly influenced by those parties. Transactions with the related parties are authorised by the management and are on arm's length basis.

Transactions with related parties are as follows:

13 Interim financial information

The interim net profit for the quarter and six months period ended 30 June 2019 may not represent a proportionate share of the annual net profit due to the variability in the receipt of dividend and investment income.

14 Segment reporting

The Company's activities are restricted to operating restaurants which are subject to similar risks and returns. The Company also owns certain investments. The ownership and returns on these investments do not form a separate business segment. Hence no business segmental information has been presented.

The Company operates only in the Kingdom of Bahrain and, hence, no geographical segmental information is presented in this unaudited condensed interim financial information.

15 Subsequent events

There were no significant events subsequent to 30 June 2019 and occurring before the date of signing of the financial statements that would have a significant impact on these financial statements.
