# Review report by the independent auditor to the Board of Directors of Bahrain Family Leisure Company B.S.C.

#### Introduction

We have reviewed the accompanying condensed interim statement of financial position of Bahrain Family Leisure Company B.S.C. ("the Company") as at 30 June 2020, the condensed interim statement of profit or loss and other comprehensive income, the condensed interim statement of changes in shareholders' equity, the condensed interim statement of cash flows for the quarter and six months period then ended, and selected explanatory notes. The management of the Company is responsible for the preparation and fair presentation of these condensed interim financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting". Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

#### Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410. "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information does not present fairly, in all material respects, the financial position of the Company as at 30 June 2020, and of its financial performance and its cash flows for the quarter and six months period then ended in accordance with International Accounting Standard 34 - "Interim Financial Reporting".

#### 2 Basis of preparation

The condensed interim financial information has been presented in accordance with International Accounting Standard 34 - "Interim Financial Reporting". The condensed interim financial information should therefore be read in conjunction with the annual audited financial statements of the Company for the year ended 31 December 2019. The financial information has been presented in Bahrain Dinars (BD) which is also the functional currency of the Company.

The condensed interim financial information have been prepared using going concern assumption under the historical cost convention, except for the valuation of financial assets at fair value through profit or loss which are carried at their fair values.

# 2 Basis of preparation (continued)

#### Improvements/amendments to IFRS/IAS

Improvements/amendments to IFRS/IAS contained numerous amendments to IFRS/IAS that the IASB considers non-urgent but necessary. 'Improvements to IFRS' comprise amendments that result in accounting changes to presentation, recognition or measurement purposes, as well as terminology or editorial amendments related to a variety of individual IFRS standards. The amendments are effective for the Company's future accounting year with earlier adoption.

# Standards, amendments and interpretations issued and effective in 2020 but not relevant

The following new amendments to existing standard and interpretation to published standard is mandatory for accounting period beginning on or after 1 January 2020 or subsequent periods, but is not relevant to the Company's operations:

Standard or Interpretation	Title	Effective for annual periods beginning on or after
IAS 1 IAS 8	Presentation of financial statements Accounting policies, changes in accounting estimates	1 January 2020
	and errors	1 January 2020
IFRS 3	Business combinations	1 January 2020
IFRS 7	Financial instruments: Disclosures	1 January 2020
IFRS 9	Financial instruments	1 January 2020

### Standards, amendments and interpretations issued but not yet effective in 2020

The following new/amended accounting standards and interpretations have been issued, but are not mandatory for financial period ended 30 June 2020. They have not been adopted in preparing the financial statements for the period ended 30 June 2020 and will or may have an effect on the entity's future financial statements. In all cases, the entity intends to apply these standards from application date as indicated in the table below:

Standard or interpretation	Title	Effective for annual periods beginning on or after
IFRS 17	Insurance contracts	1 January 2021

There would have been no change in the operational results of the Company for the period ended 30 June 2020 had the Company early adopted any of the above standards applicable to the Company.

### Early adoption of amendments or standards in 2020

The Company did not early-adopt any new or amended standards in 2020. The Company does not believe that the early adoption of these standards and interpretation will have a material impact on the financial statements once adopted.

# 3 Significant accounting policies and critical accounting judgments, estimates and assumptions

The accounting policies used in the preparation of the condensed interim financial information are consistent with those used in the annual audited financial statements of the Company prepared as at, and for the year ended 31 December 2019, as described in those annual audited financial statements, except for amendments to IFRS 16: COVID-19 Related Rent Concessions, which were adopted on 1 June 2020.

Details of the impact this amendment has had are given below. Other new and amended standards and Interpretations issued by the IASB that will apply for the first time in the next annual financial statements are not expected to impact the Company as they are either not relevant to the Company's activities or require accounting which is consistent with the Company's current accounting policies.

#### Amendments to IFRS 16: COVID-19-Related Rent Concessions

Effective 1 June 2020, IFRS 16 was amended to provide a practical expedient for lessees accounting for rent concessions that arise as a direct consequence of the COVID-19 pandemic and satisfy the following criteria:

- (a) The change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- (b) The reduction is lease payments affects only payments originally due on or before 30 June 2021; and
- (c) There are is no substantive change to other terms and conditions of the lease.

Rent concessions that satisfy these criteria may be accounted for in accordance with the practical expedient, which means the lessee does not need to assess whether the rent concession meets the definition of a lease modification. Lessees apply other requirements in IFRS 16 in accounting for the concession.

The Company has elected to utilise the practical expedient for all rent concessions that meet the criteria. The practical expedient has been applied retrospectively, meaning it has been applied to all rent concessions that satisfy the criteria, which in the case of the Company, occurred from April 2020 to June 2020.

Accounting for the rent concessions as lease modifications would have resulted in the Company remeasuring the lease liability to reflect the revised consideration using a revised discount rate, with the effect of the change in the lease liability recorded against the right-of-use asset. By applying the practical expedient, the Company is not required to determine a revised discount rate and the effect of the change in the lease liability is reflected in profit or loss in the period in which the event or condition that triggers the rent concession occurs.

The effect of applying the practical expedient is disclosed in Note 4(b).

# 3 Significant accounting policies and critical accounting judgments, estimates and assumptions

There have been no material revisions to the nature and amount of estimates of amounts reported in prior periods. However, as discussed in Note 4, the effects of COVID-19 have required significant judgments and estimates to be made, including:

- a) Whether rent concessions satisfy the criteria to be accounted for using the practical expedient introduced by the amendments to IFRS 16;
- b) Assessing whether the entity has reasonable assurance as to whether it will comply with the conditions attached to government grants; and
- c) Determining which information obtained subsequent to period end provides evidence of conditions that existed as at the end of the reporting period ('adjusting events after the reporting period') and which do not ('non-adjusting events after the reporting period'). For disclosure of non-adjusting events after the reporting period, refer to Note 16.

Additionally, while the changes in the following estimates and judgments have not had a material impact on a Company, the effects of COVID-19 have required revisions to:

- a) Estimates of customer returns and the determination of a Company's methodology for estimating the transaction price for sales subject to rights of return:
- b) Estimates of expected credit losses attributable to accounts receivable arising from sales to customers on credit terms, including the incorporation of forward-looking information to supplement historical credit loss rates; and
- c) The methodology used to estimate the fair value of equity instruments classified as level 3 in the fair value hierarchy, as their valuation techniques incorporate significant unobservable inputs.

#### 4 Significant events and transactions

The World Health Organisation declared coronavirus and COVID-19 a global health emergency on 30 January 2020. Since then, a Company has experienced significant disruption to its operations in the following respects:

- The closure of many retail locations due to local governments mandating that shopping centres and other 'non-essential' businesses cease normal operations;
- Disruptions in the supply of inventory from major suppliers;
- Decreased demand for certain products as a consequence of social distancing requirements and recommendations; and
- Significant uncertainty concerning when government lockdowns will be lifted, social distancing requirements will be eased and the long-term effects of the pandemic on the demand for a Company's primary products.

#### 4 Significant events and transactions

Based on the nature of operations and the industry in which it operates, the Company's management assessed the significant impact of COVID-19 in the below areas:

- Decrease in operating income;
- Rent concessions;
- · Government grants;
- · Going concern; and
- Commitments and contingencies.

#### (a) Decrease in operating income

Company has experienced a significant reduction in its operating income since pandemic effect was widespread during the period ended 30 June 2020. The Company is engaged in operating restaurants, providing services related to family entertainment, supply of amusement related equipment. All of the restaurants operated by the Company were closed during the period causing the decrease in operating income by BD404,817 as compared to the prior period. The Company has reported a total operating income of BD309,168 for the six months period ended as compared to BD713,985 in the corresponding previous period.

### (b) Rent concessions

As discussed in Note 2, the Company has elected to apply the practical expedient introduced by the amendments to IFRS 16 to all rent concessions that satisfy the criteria. Substantially all of the rent concessions entered into during the six-month period ended 30 June 2020 satisfy the criteria to apply the practical expedient.

The application of the practical expedient has resulted in the reduction of total lease liabilities of BD18,237. The effect of this reduction has been recorded in the statement of profit or loss and other comprehensive income in the period in which the event or condition that triggers those payments occurs.

#### (c) Government grants

The Company has applied for government support programs introduced in response to the global pandemic. The Company has received a government grant of BD8,680 relating to supporting the payroll of the Company's employees and LMRA fees. The Company has elected to present this government grant by reducing the related staff cost. The Company had to commit to spending the assistance on payroll expenses, and not reduce employee head count below prescribed levels for a specified period of time. The Company does not have any unfulfilled obligations relating to this program.

### (d) Going concern

The Company has incurred a net loss of BD777,246 during the six months period ended 30 June 2020. The current period losses have increased the accumulated losses to BD843,490 as at 30 June 2020 raising concern on the going concern status of the Company.

The Company has performed an assessment of whether it is a going concern in the light of current economic conditions and all available information about future risks and uncertainties. The projections have been prepared covering the Company's future performance, capital and liquidity. The impact of Covid-19 may contribute to evolve, but at the present time the projections show that the Company has ample resources to continue to operational existence and its going concern positions remain largely unaffected and unchanged from 31 December 2019. As a result, this interim condensed financial information has been appropriately prepared on a going concern basis.

### 4 Significant events and transactions (continued)

### (e) Commitments and contingent liabilities

The Company has assessed the impact of any operational disruptions, including any contractual challenges and changes in business or commercial relationships among the Company, customers and suppliers, with a view of potential increase in contingent liabilities and commitments and no issued were noted.

The below table summarizes the impact of COVID-19 at this condensed interim financial information for the six-month period ended 30 June 2020:

Financial statement area	Nature of impact	_Amount <bd></bd>
Operating Income	Decrease	404,817
Rent concessions received	Increase	18,237
Government grants	Increase	8,680
Accumulated losses	Increase	777,246

No other significant impact has been noted by the management on other financial statement areas during the period ended 30 June 2020.

Treasury shares were acquired consistent with the Ministry of Industry and Commerce's approval to purchase up to 10% of the Company's issued and fully paid-up share capital. The nominal value of these shares has been disclosed as deduction from reserves. The difference between the nominal value of the acquired shares, and the purchase price, was credited to the capital reserve.

## 12 Basic and diluted loss per share

Basic and diluted loss per share is calculated by dividing the net profit or loss attributable to the shareholders by the weighted average number of ordinary shares issued during the period, excluding the treasury shares purchased and held by the Company.

	Quarter ended <u>30 June 2020</u> (Unaudited)	Quarter ended 30 June 2019 (Unaudited)	Six months period ended 30 June 2020 (Unaudited)	Six months period ended 30 June 2019 (Unaudited)
Net loss attributable to the shareholders	(126,622)	(1,381,942)	(777,246)	(1,255,199)
Weighted average number of ordinary shares	36,000,000	36,000,000	_36,000,000	36,000,000
Basic and diluted loss per share	Fils(3.52)	_Fils(38.39)	Fils(21.59)	Fils(34.87)

The Company does not have any potentially dilutive ordinary shares, hence the diluted earnings per share and basic earnings per share are identical.

### 13 Transactions and balances with related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties include the shareholders, directors, key management personnel and their close family members and such other companies over which the Company or its shareholders, directors, key management personnel and their close family members can exercise significant influence or can be significantly influenced by those parties. Transactions with the related parties are authorised by the management and are on arm's length basis.

Transactions with related parties are as follows:

Related party	Related party Relationship	Type of transaction	Period ended 30 June 2020 (Unaudited)	Period ended 30 June 2019 (Unaudited)

#### 14 Interim financial information

The interim net profit for the quarter and six months period ended 30 June 2020 may not represent a proportionate share of the annual net profit due to the variability in the receipt of dividend and investment income.

#### 15 Segment reporting

The Company's activities are restricted to operating restaurants which are subject to similar risks and returns. The Company also owns certain investments. The ownership and returns on these investments do not form a separate business segment. Hence no business segmental information has been presented.

The Company operates only in the Kingdom of Bahrain and, hence, no geographical segmental information is presented in this unaudited condensed interim financial information.

### 16 Subsequent events

Based on the communication received from Bahrain Bourse, the Company is required to transfer the unclaimed dividend to Bahrain Clear's account with CBB latest by 31 July 2020. No funds have been transferred to the designated account as on the date of these financial statements. Any default in making such transfer may result in financial penalty. The Company's management is currently evaluating the liquidity position of the Company in consultation with the Board of Directors and aims to address the matter in an appropriate manner.

The Government of Bahrain has announced to pay 50% of salaries of private company workers in sectors that were hard-hit by the coronavirus pandemic. The new payment will start in July and continue for a three-month period. The Company is also in the process of negotiation with lessors for additional rent concessions of their restaurant outlets. If the negotiations would be successful, the rent concessions will result in reduction in lease liabilities. The Health Ministry of Kingdom of Bahrain has announced that the restaurants in Bahrain will stay closed to in-house diners. The Company is engaged in operating restaurants and providing services related to the family entertainment, hence the Company operating income is expected to be further reduced.

There were no other significant events subsequent to 30 June 2020 and occurring before the date of signing of the financial statements that would have a significant impact on these financial statements.
